### Infrastructure & Transport

### Building & Energy

### Water & Environment

#### Swiss Market

- Analysis of Natural Hazards
- Civil Engineering Structures
- Control and Regulation Systems, Monitoring
- Geotechnics
- Hydropower and Dams
- Intelligent Transportation Systems (ITS)
- Mechanics and Ventilation
- Operating and Safety Equipment
- Operational Assistance
- Railway Engineering
- Rail Technologies
- Road Engineering
- Security, Risk Analysis
- Transportation Planning and Mobility
- Transport Infrastructures
- Tunnels and Underground Structures

#### French Market

- Airports
- Clinics and Hospitals
- Cultural Infrastructure
- Eco-districts and Eco-quarters
- Education
- Energy Efficiency
- Hotels
- Housing and Administrative Buildings
- Industries and Retail Spaces
- Laboratories and Research
- Prisons, Detention Centres
- Production, Distribution and Storage of Renewable Energy
- Railway Stations
- Sports and Aquatic Centres
- Strategic Studies and Energy Planning
- Water Loops

#### International Market

- Contaminated Sites and Brownfield Sites
- Drinking Water Supply, Treatment and Distribution
- Engineering and Environmental Assessments of Projects
- Port and Coastal Developments
- Rainwater Management and Alternative Techniques
- River Management and Waterways
- Sorting, Treatment and Recovery of Sludge and Waste
- Wastewater and Rainwater Intake and Transportation
- Wastewater Treatment and Recovery

### General Services

Human Resources, Finance, Information Systems, Communication and Marketing
